clronnie.ma@gmail.com

Vancouver, BC

https://clronniema.github.io/

SKILLS

- GIS: ArcGIS Pro, QGIS, PostGIS, ContextCapture
- Data Processing: Python, SQL, FME, R
- Programming: Python, Javascript (React and Vue), PySide, Typescript
- Others: Docker, Prefect

LANGUAGES

- Spoken:
  - Cantonese (Fluent)
  - English (Fluent)
  - Mandarin (Advanced)
- Read and Write
  - Chinese and English

PROFILE

GIS analyst with extensive working experience in GIS, proven proficiency in GIS data ETL and developing GIS applications. Familiar with Esri products such as ArcGIS Pro, ArcGIS Online and geoprocessing tools, as well as open source tools such as QGIS on a regular basis. Looking forward to my next challenge in Canada and is excited for upcoming challenges and problems to solve.

WORK EXPERIENCE

GIS Developer 2026-PRESENT

Vintality Tech Inc. | BC, Canada

- Managing GIS data infrastructure, including setting up self-hosted Mergin Maps server, data syncrhonization on PostGIS, raster imagery and GeoServer.
- Develop backend APIs and frontend GIS page for advanced visualizing of GIS data using Angular. Using AWS technologies to support the applications (EC2, S3, RDS and more)

Senior Digital Solutions Sepcialist (GIS) 2022-2024

AECOM Asia Company Limited | Hong Kong

- Research, compile standards and provide technical expertise in the GIS data exchange processes for the Hong Kong's Common Spatial Data Infrastructure (CSDI). Collaborate and coordinate among multiple government stakeholders, drafting documents for government and the public describing the open geospatial data and data exchange process amongst government departments.
- Leading market research for Hong Kong Lands Department's 3D GIS data production, including photo-realistic 3D models, CityGML and indoor mapping. Research involves specifications of international standards, best practices and data.
- Key Software: ArcGIS Pro, QGIS, Python, FME

GIS Developer 2020-2022

RaSpect Intelligence Inspection Limited | Hong Kong

- Develop on-vehicle data collection module for a signboard defect detection system, providing a single solution to facilitate field staff to collect images, GPS and LIDAR data. Including frontend (Vue.js) backend for hardware integration (Python) and GIS data processing services (Python, Docker).
- Responsible for developing a Python function to deduce the real world 3D location of 2D annotaions using photogrammetry principles, as well as creating Python APIs for automation. Innovated and transformed the technology, connecting the AI image inspection results to real world for improved inspection workflow.
- Create custom QGIS desktop tool using PySide to improve workflow for remote GIS data editing staff. QA/QC and training for remote staff.

GIS ANALYST | GIS DEVELOPER (PAGE 2)

CERTIFICATES & AWARDS

- Recipient of Research Talent Hub for Incubatees and I&T Tenants of the HKSTPC and the Cyberport (RTH- SPC) (2021)

OTHERS

Available in two weeks notice

WORK EXPERIENCE (CON'T)

System Analyst 2020

Joint Wisdom Engineering Ltd | Hong Kong

- Acted as GIS administrator, overseeing ArcGIS Enterprise products. including spatial databases. Responsible for improving workflow for GIS users, providing Python scripts to simplify tasks, assist QA/QC process and assist users in mass data update using FME.
- Create and maintain web GIS applications for office and site staff to view latest light pole data and status for deployment. Key skills: React.js with Typescript, data retrieved from ArcGIS Server.
- Design scripts and workflow to streamline deployment plan maps generation for regular lighting utility maintenance and IoT projects.
- Managing operation GIS data on ArcGIS Portal and ArcGIS Online for prototypes
- Esri product technical support for GIS users of the company.

Senior GIS Analyst 2018-2019

Esri China (Hong Kong) | Hong Kong

- Preparing demonstrations, benchmarks, prototypes of Esri products. Including projects for 3D visualization, creating web maps using ArcGIS API for Javascript and mobile applications. Projects include data collection apps, electricity network data management, 3D visualization tools, demonstration sessions to universities.
- Manage data in ArcGIS Portal and ArcGIS Online, building low-code solutions through WebApp Builder and AppStudio.
- Advising sales team on technical studies, conduct Esri products research, provide end-user technical support
- Key Software: ArcGIS Pro, ArcGIS Enterprise, ArcGIS Online

GIS Specialist 2015-2018

Au Posford Consultants Ltd | Hong Kong

- Developing GIS Android applications, preparing and conducting User Acceptance Tests. Responsible for data preparation such as querying spatial data using SQL, interfacing data using Oracle stored procedures. Update REST API on data change.
- GIS web and desktop applications development using ArcGIS API for Javascript, and C# .NET framework
- Managing geospatial information on ArcMap and data conversion using FME
- Design workflow for GIS data collection and QA/QC

EDUCATION

MSc in Geomatics 2015-2017

The Hong Kong Polytechnic University

BSc in Geography 2011-2014

McGill University
